

# Manage

## MAKE MANAGING ALL YOUR MOBILE DEVICES SIMPLE

Over-the-air management of your multi-OS devices saves you time and money, ensuring that devices have appropriate policies and settings so that they're ready for use in learning — in the classroom and out.

### Policies & Apps

Remotely set hundreds of policies and restrictions to control your devices with the click of a button.

### Hierarchy & Inheritance

It's built like your school, so it's easy to differentiate policies and delegate administration by school or group.

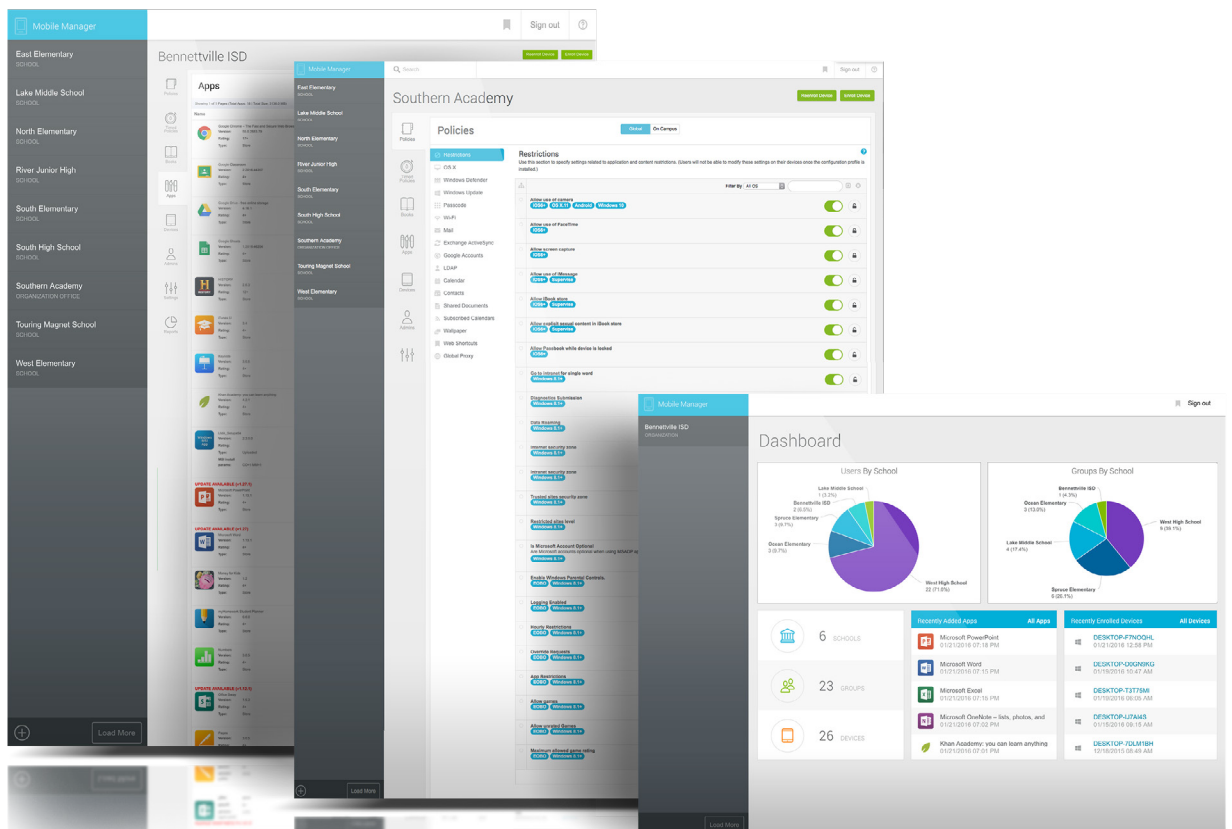

### App Delivery

Push apps and manage app inventory through easy controls and integration with your favourite OS app stores.

### Class Control

Delegate teacher-level temporary controls and content delivery to ensure smooth and seamless use in the classroom.
