

NEWFIELD PARK SCHOOL

TE KURA O NGA PURAPURA

The school mission statement for Newfield Park School is A vibrant learning community who work together to empower children to succeed through learning.

Our Valued Outcomes for Children

Our children are happy, caring and successful.

Our Values

Manaakitanga, Whanaungatanga, Ako

Our Principles

We believe that children are motivated, engaged learners when; relationships, manaakitanga and whanaungatanga are valued and honoured, they are active learners and they have a strong sense of self.

Newfield Park School has been working with Online Computers for over 20 years to help them achieve the digital learning component of their school vision. Here are some of the ways they have worked towards achieving this.

Newfield Park School decided to invest in an increasing number of iPads throughout their classrooms. iPads were chosen for their ease of access for all students and the wide range of creative uses across the curriculum. Newfield Park has always been an Apple only school and the iPads are a great addition to the laptops used throughout the school.

Deployment and Management

The products are all purchased at education pricing via Online Computers and loaded into the Device Enrolment Program at no cost to the school.

Online Computers have helped them enrol each iPad into the Lightspeed MDM platform.

Once in Lightspeed all the apps and settings are managed from a central location.

This has helped the school move their devices from the box to the classroom, with ease, into the hands of the students where they should be.

Remote and On-Site Support

An important component of Newfield Park School's digital learning platform is the support from trained and experienced IT technicians. Vanessa Young is tasked with the day to day management of their devices and support.

Alongside this, however, is the remote support that Vanessa receives from Tim Beer, Online Computer's Apple Certified Technician. Tim has been visiting the site for over 20 years and knows how everything works. Jayden Cusack has taken on the role of on-site support from 2022.

Tim will be in the sales and remote support role and setup and configuration of any MDM solutions.
